

# WERXE ENGINEERING

COMPANY PROFILE 2012

# Overview

WERXE Engineering Ltd is a Zambian based organization that came into existence in 2012 and started its operations in Chingola in May 2012. The company was born out of the biggest ICT (Information Communication Technology) Company in Africa, Business Connexion (Pty) [South Africa], after the latter closed its Copperbelt operations following the global economic downturn in 2008; in 2009 Melrose Zambia was formed to continue the business operations until 2012, when WERXE Engineering Ltd took over all Melrose Zambia operations.

WERXE Engineering Ltd's business strategy is to partner with leading companies to deliver second to none world-class services and products to its clients.

WERXE Engineering Ltd service offerings are primarily focused on technology and general engineering consulting and business applications. WERXE Engineering Ltd collectively possesses extensive experience in the ICT and Engineering sector driven by quality assurance, customer satisfaction and innovation. This combination of intellect, experience and professional integrity creates a combination which can uniquely serve the organizational needs efficiently effectively and expeditiously.

The WERXE Engineering Ltd workforce and management consist of mainly seasoned engineers, technicians and management professionals with a vast experience in the mining and industrial engineering sector of the Southern African region.

# Mission

We are committed to strengthen our position in the area of Engineering and ICT Services, providing innovative and leading edge solutions and services to our clients and customers.

# Vision

To emerge as a leading company in the field of consulting, product delivery and service in the area of ICT and General Engineering.

# Products and Services

- Processing Plant Instrumentation and Plant Automation via SCADA Systems.
- Fire detection and suppression systems for hazardous environs.
- Industrial Motor Rewinding and Rebuilding/Refurbishing.
- Underground mine railway support systems.
- Civil construction and structural support systems.

# Cientele

A few of our valued clients and projects we have participated in:

## **Konkola North Copper Mines**

Infrastructure Solutions; LAN and WAN Design and Administration; Fibre Optic and Ethernet Cabling solutions; Radio and Telecommunications Systems Design; Preventive Maintenance; Technology Consulting, Plant Instrumentation and Automation Installations

## **Maamba Collieries**

Radio and Telecommunications Systems Upgrade and Support; Technology Consulting; Fibre Optic and Ethernet Cabling solutions; Plant Instrumentation and Automation Installations

## **Mechanised Mining Solutions (Nchanga Mine)**

Underground Leaky Feeder Radio Communication System, Telephony Network Upgrade, Radio and Telephony Systems Support

## **JC Bousfield**

Infrastructure Solutions; LAN Design and Administration; Systems Support; Preventive Maintenance; Technology Consulting

## **Bulk Mining Explosives**

LAN Design and Administration; Infrastructure Solutions; Preventive Maintenance; Technology Consulting and Training

## **Weir Minerals/ Pump Logistics**

Infrastructure Solutions; Post Implementation Services; Preventive Maintenance; Technology Consulting and Training

## **Moggs Drilling**

Infrastructure Solutions; Post Implementation Services; Preventive Maintenance; Technology Consulting

## **Parmalat (Z)**

Business Process re-engineering; Strategy Consulting; Data Quality; DW/BI; DRP/BCP – Plan and Strategy; Technology Consulting

## **Multotec and Britalmin**

Infrastructure Solutions; Post Implementation Services; Preventive Maintenance; Technology Consulting

## **Gecamines [DRC] (*Recent*)**

Marketing and Supplying Diesel fuel and Fuchs lubricants
